WORK EXPERIENCE

Frontend Developer — 2022 - present
REHUB FORGE GmbH, Cologne (remote), Germany
- **Expertise in Frontend:** Development and implementation of a web application using JavaScript, TypeScript, MaterialUI and Remix, consistently translating designs from Figma into responsive, user-friendly interfaces.
- **Full-Stack Knowledge & Collaboration:** Comprehensive understanding of the entire application architecture, including Backend services, Cloud infrastructure, Testing frameworks, Virtual machines, and CI/CD runners, facilitating seamless collaboration with cross-functional teams.
- **Agile & Scrum Methodology:** Actively contributing in an Agile environment, working in sprints and Scrum methodology to ensure timely delivery of high-quality software features.

Junior Frontend Developer — 2021 - 2022
TI Software Solutions LDTA, Brazil (remote)
- Development of web applications using HTML, CSS, JavaScript and React.
- Implementation of a responsive design for user-friendly application. Use of React custom Hooks, Redux and reusable components for efficient and structured applications.
- Working on a GitHub environment and with Jira Ticket System

Quality Engineer / Intern — 2012 - 2020
Stoz GmbH, Rottenburg, Germany (2018 - 2020)
Andritz Separation, Pomerode, Brazil (2014 - 2017)
Bosch Rexroth, Pomerode, Brazil (2012 - 2014)
Several years of experience in the Quality field, working with tests and releases, intensive interaction with clients and production complaints, coordination of product samples, root cause analyses, implementation of actions for the continuous improvement process.

ACADEMIC BACKGROUND

Full Stack Web Development Bootcamp — 2021
Spiced Academy, Berlin, Germany
HTML & CSS - Git & GitHub - Node.js - JavaScript - React - Vue - SQL
12-week full-time course covering the following topics:
- Fundamentals of GitHub, shell commands and DOM tree
- Deep understanding of HTML and CSS animations
- Javascript loops, callback functions and asynchronous coding. Clean and efficient JS code.
- React's functions, hooks, custom hooks and nested components to create structured and efficient web applications
- Use of Next.js to create highly scalable web applications.
- Build robust backend using API routes and PostgreSQL database

Diploma, Production Engineering — 2011 - 2016
FURB University, Blumenau, Brazil
